## **DETAILED ACTION**

### ***Response to Amendment***

The Amendment, filed on 02/03/2004, has been entered and acknowledged by the Examiner.

Cancellation of claim 25 has been entered

### ***Election/Restrictions***

This application is in condition for allowance except for the presence of claims 14 to 24 currently non-elected without traverse. Accordingly, claims 14-24 been cancelled.

### ***Allowable Subject Matter***

Claims 1-13 and 26-32 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a polarized electroluminescence (EL) element including an orientation-inducing layer on a substrate and a light-emitting layer on the orientation-inducing layer where the light emitting layer further includes a mixture of an EL material and an orientation material and the EL material is one of a polyimide or polyphenylamide.

Regarding claims 2-8, 11, and 12, claims 2-8, 11, and 12 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Art Unit: 2879

Regarding claim 9, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 9, and specifically comprising the limitation of a polarized electroluminescence (EL) element including an orientation-inducing layer on a substrate and a light-emitting layer on the orientation-inducing layer where the light emitting layer further includes a mixture of an EL material and an orientation material and the EL material is one of a polyimide or polyphenylamide.

Regarding claim 10, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 10, and specifically comprising the limitation of a polarized electroluminescence (EL) element including an orientation-inducing layer on a substrate and a light-emitting layer on the orientation-inducing layer where the light emitting layer further includes a mixture of an EL material and an orientation material and where the light emitting element has a structure of cross-linking polymer.

Regarding claims 26-32, claims 26-32 are allowable for the reasons given in claim 10 because of their dependency status from claim 10.

Regarding claim 13, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 13, and specifically comprising the limitation of a polarized electroluminescence (EL) element including a light-emitting layer on the substrate where the light emitting layer further includes a mixture of an EL material and an orientation material, the EL material is one of a polyimide or polyphenylamide, and where the direction of orientation is obtained by exposing to light.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
